Heating System & Winter Use Guidelines (November to the end of March)

About Using the Floor Heating

Our facility is equipped with two floor heating control panels.
Please note that each panel controls different areas.

① Control Panel (Common Areas)

・Toilet ・Kitchen ・Living Room ・Entrance

② Control Panel (Japanese-Style Room)

How to Use

Turn on the power and adjust the temperature using the control panel.

※It may take approximately 1 hour for the floor heating to warm up.

About Using the Radiator Heating

Our facility uses a hot-water radiator heating system. For safe and comfortable use, please be sure to follow the instructions below.

How to Use	Turn the dial to operate the radiator. 0: Off 0: Off 1–10: Adjusts the heating level The higher the number, the stronger the heating.

Radiator Locations

●The areas marked with a red circle indicate where radiators are installed.

Dial Settings

Dial 0	Off
Dial 1–10	Heating level adjustment
The higher the number, the stronger the heating.	

Important Notes When Using

・It takes approximately 1 hour for the room to warm up after turning on the radiator.

・After use (at check-out), please make sure to return the dial to “0”.

Winter Use Precautions (November to the end of March)

To prevent freezing during winter:
When the radiator is not in use or at check-out, do not set the dial to “0.”
Please set the dial to the ❄ (snowflake) mark instead.
This setting helps prevent freezing of the heating system.

Cleaning & Garbage Disposal

Please separate all garbage and gather it inside the entrance area before check-out.

※Do NOT dispose of garbage at the outdoor garbage station under any circumstances.

A vacuum cleaner is provided inside the facility.

If you notice any dirt or dust during your stay, please feel free to use it.

If the electricity inside the property stops working, the circuit breaker may have tripped.

【How to Restore Power】

1. Please go to the laundry room on the second floor.
2. Just inside the entrance of the laundry room, the electrical breaker panel is located above.
3. If any breaker is set to “OFF,” please switch it back to “ON.”

In most cases, the power will be restored by following these steps.

【1st Floor Bedroom】
Mounted on the wall

【2nd Floor Bedroom】
Attached to the bed frame

【2nd Floor Bedroom】
Attached to the bed frame

Flashlights Provided in Bedrooms

For use during a power outage, flashlights are provided near the beds in each bedroom.

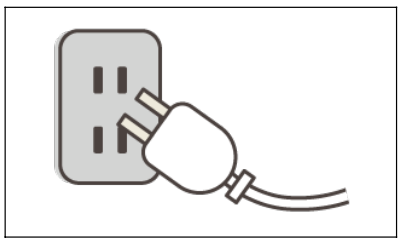

Please use them when moving in the dark or when operating the circuit breaker.

Using many electrical appliances at the same time may cause the breaker to trip. If the power does not return or the cause is unclear, do not force any operation and please contact the host immediately.

070-9231-0119

Internet Connection Issues

If you are unable to connect to the internet, please check the Wi-Fi device (home router) located on top of the sink on the second floor.

1. Unplug the power cable from the device.
2. Wait for about 10 seconds.
3. Plug the power cable back in. After restarting, it may take approximately 1 minute for the connection to be restored.

If the issue does not improve, please contact the emergency contact number.

Fire, Gas Leaks, and Other Emergencies

In the event of an emergency such as a fire or gas leak, please prioritize your personal safety above all else.

・If you notice fire, a gas leak, unusual odors, or smoke, evacuate the building immediately.

・After evacuating, contact Fire/Ambulance (119) or Police (110). If possible, please also contact the host as soon as it is safe to do so.
